Profile Summary

I am a second-year B.Sc. Computer Science student at Lakshya Institute of Technology, looking for my first opportunity to apply what I have learned. I chose computer science because I like turning an idea into something people can use, and code is the most direct way to do that. My passion is Python automation: finding repetitive tasks and building small tools that remove them. I have a foundation in Python, C, and web basics and am strengthening my data structures and problem-solving skills while exploring AI and open source. As a fresher, I bring curiosity, consistency, and a willingness to learn.

Technical Skills

Programming Languages: Core Python,
Front-End: HTML,JavaScript
Editors:VS Code, Eclipse,IDLE

Technical Skills and Interests

Technical Skills:Python
Soft Skills: Self-Learning, Time Management, Teamwork
Field of Interest: Python Automation, Artificial Intelligence, Open Source
Hobbies: Learning New Technologies, Reading Tech Articles, Badminton

Education

Lakshya Institute of Technology | Bhubaneswar *2025 – Present*
Bachelor of Science in Computer Science (B.Sc. CS) | First Semester CGPA: 8.14/10

Kendriya Vidyalaya | Sonepur *July 2023 – March 2025*
Class XII - 64%

Kendriya Vidyalaya | Sonepur *April 2022 – March 2023*
Class X - 83%

Courses and Certificates

C Language Basics – LIT: Developed core problem-solving and programming skills.

Python Basics – LIT: Developed core problem-solving and programming skills.
